# JOSE ASHMITHA V

**Software Tester | QA Engineer (Manual & Automation Testing)**

Sivagangai, Tamil Nadu | 9585449809 | joseashmitha@gmail.com https:\\linkedin.com/in/jose-ashmitha-v-8aa824283

## CAREER OBJECTIVE

Detail-oriented B.Sc. AI & Data Science graduate seeking an entry-level Software Tester / QA Engineer role. Skilled in manual testing, test case design, SDLC/STLC, bug tracking, and Java-based automation,Requirement Analysis,Test Planning & Design,Test Execution,Defect Tracking,Regression Testing. Strong analytical and data-validation background from ML project work. Committed to ensuring software quality, reliability, and defect-free releases from day one.

## CORE TESTING SKILLS

- **Manual Testing:** Test Case Design, Test Plan Creation, Functional Testing, Regression Testing, Smoke & Sanity Testing, UAT
- **Testing Concepts:** SDLC, STLC, Black Box Testing, Bug Life Cycle, Defect Reporting & Tracking, Requirement Analysis
- **Automation & Tools:** java with Selenium,Postman (API Testing Basics), Excel-based Test Documentation
- **Database & Analysis:** SQL Basics, Data Validation, EDA, Data Preprocessing, Power BI Reporting
- **Platforms:** AWS Cloud Foundation, Microsoft Office, Advanced Excel,

## KEY PROJECT

**Manual Testing of BookCart E-Commerce Website | Manual Testing, Test Case Design, Bug Reporting**

• Completed a manual software testing project on the BookCart e-commerce demo website, validating key modules such as Login, Registration, Book Search, and Shopping Cart.

• Designed and executed test cases covering functional, positive, and negative testing to verify application behaviour against expected results.

• Identified and documented defects using structured bug reports, including reproduction steps, severity, and priority.

• Prepared test documentation and analysed execution results to support software quality assurance.

## CERTIFICATIONS

Power BI • Computer Networks • AWS Cloud Foundation • Python with AI • Python with ML • Cloud Computing • JavaScript for Beginners • Microsoft Office & Basic Python • Front-End Development

## EDUCATION

- **B.Sc. Computer Science (AI & Data Science)** — Karpagam Academy of Higher Education, Coimbatore | 2026 |Overall CGPA: 8.23/10

## WHY HIRE ME FOR SOFTWARE TESTING

- Quality-Focused: Trained in identifying inconsistencies, validating data, and verifying outcomes through hands-on ML project testing.
- Detail-Oriented: Strong analytical mindset built through feature engineering, EDA, and systematic result documentation.
- Technically Versatile: Working knowledge of Python, SQL basics, and cloud platforms supports both manual and automation testing tasks.
- Fast Learner: 9 certifications across AI, ML, Cloud, and Web demonstrate initiative to quickly pick up new tools and QA processes.
- Team Player: Strong communication, problem-solving, and collaboration skills suited for Agile QA teams.

## DECLARATION

*I declare that the information given above is true and correct to the best of my knowledge.*
